

SWR2-RJ45-BK: RJ45 DATA CABLE

For data connections between controllers and DMX Direct fixtures, and between fixtures. Specify length with number of inches at end of part #.

PCL003: DMX TERMINATOR

For terminating the final device with daisy-chain data to absorb signal power which would otherwise be reflected back into the cable and degrade the data. Fits into the RJ45 of the DATA out of DMX Direct Fixtures. Includes Integrated Resistor.

PCL002: RJ45/HARDWIRE DATA COUPLER

PCB Interface for hardwiring a DMX data connection. Includes RJ45 Jack and Terminal Block for fast easy connections.

PCL004: RJ45 DATA COUPLER

Double-sided RJ45 Connection, for extensions of existing CAT5/RJ45 runs.
